

# **COVID-19 NEWS ALERT**

## **TEST KITS FOR PONTIAC**

Mayor Deirdre Waterman

Announcing that a few days ago I placed an order for test kits for Pontiac. I wanted to share this information because so many of our citizens have been anxiously waiting for testing to be more readily available to the public. These are the kits that detect antibodies so we need to give priority to our first responders and essential workers who place themselves at risk everyday to respond to the crisis needs of the rest of us. I am waiting now for confirmation of the order delivery time and will announce that soon, in the meantime I am continuing to collaborate with other organizations and service focused non-profits who are helping to seek out additional resources for test kits and sites for the city. But this breakthrough for our community is a big step that comes as good news for this Easter weekend. Let's have everyone stay home, stay safe and remember those who are struggling with Covid-19 as we experience this holiday weekend apart in distance but united in spirit.
